Dear Mr Grobler

TESTING OF PACKAGING

1. Furthermore to our previous correspondence regarding the testing packaging for the transport of dangerous goods, I have to advise you that UN-test will be recognised as an accredited testing organisation for the testing of packaging for the transport of dangerous goods as prescribed by the IMDG Code.
2. This recognition is subject thereto that your laboratories receive the necessary accreditation by NCS. Proof of this must be submitted, please.
3. The recognition is further subject thereto that the Department may withdraw it at any time.

Yours faithfully

for DIRECTOR-GENERAL: TRANSPORT
